

Patient Label

Greater New Orleans Surgery Center

**Operative Report**

**Physician Name:** Dr Bernard Landry

**Patient Name** \_\_\_\_\_ **Date** \_\_\_\_\_

**Pre-Op Diagnosis** \_\_\_\_\_

**Post-Op Diagnosis** \_\_\_\_\_

**Procedure:** Arthrogram - Location: \_\_\_\_\_

Bilateral     Right     Left

**Complications:** \_\_\_\_\_

**Procedure in Detail:**

The patient was prepped and draped in a sterile fashion. Local anesthesia (skin) employed. Under fluoroscopic guidance a 22 gauge needle was advanced into the \_\_\_\_\_ joint. A small amount of non-ionic contrast was injected to confirm needle tip location. Then \_\_\_\_\_ was injected (\_\_\_\_\_ ml).
