

Bernard Landry, M. D.
Interventional Radiology / Pain Management

Post Operative Instructions

Myelogram

1. Bed rest for 24 hours (reclining type chair)
2. Drink lots of fluids today
3. Take 'Tylenol' if you have a headache
4. If your headache worsens despite medicine call your referring physician for further instructions.
5. Return to normal activity in 48 hours.

I have received and understand the discharge instructions provided to me.
